UNIVERSITAT
ROVIRA i VIRGILI

The aim of the **Universitat Rovira i Virgili (URV)** is very clear: to place knowledge at the service of society in order to contribute to the social and economic development of its environment, which has gradually transformed over time. And it does so by offering a full range of educational possibilities, an extensive doctoral programme and a flexible lifelong learning programme, so that professionals can constantly update their knowledge and improve their skills.

One of the aim pursued with the Project T.E.S.T. is to help find an effective model for developing adaptive learning, so as to provide students and teachers, as a team, with the ability to integrate their experiences and adapt to the needs and diversity of students.

Its team involved in the Project T.E.S.T. is composed of
Dr. Teresa Torres, and Dr. Manuel Ahedo.
